Manila, Aug. 21.-Influential Catholics here say they have reliable information from Rome that the Philippines will have nine new bishoprics, seven of which will be presided over by Americans, giving the islands an archbishop

He thinks the great rivalry between the various political factions speaks well for the interest felt in the government. Wherever it was possible, natives were invariably

HARD TO PLEASE. Resarding the Morning Cup.

"Oh how hard It was to part with coffee, but the continued trouble with constipation and belching was such that I finally brought myself to leave it off. Then the question was, what should we use for the morning drink? Tea was worse for us than coffee; chocolate and cocoa we soon tired of; milk was not liked very well, and hot water we could not endure.

About two years ago we struck upon Postum Food Coffee, and have never been without it since. We have seven children. Our baby, now eighteen months old, would not take milk, so we tried Postum and found she liked it and and it agreed with her perfectly. She is today, and has been, one of the healthiest babies in the state. I use about two-thirds Postum and one-third milk and a teaspoon of sugar, and put
it into her bottle. If you could have
seen her eyes sparkle and hear her say
"good" today when I gave it to her,
you would believe me that she likes it.

If I was matron of an infants' home, every child would be raised on Postum.
Many of my friends say, 'You are looking so well!' I reply, 'I am well; I
drink Postum Food Coffee. I have no

more trouble with constipation, know that I owe my good health to God and Postum Food Coffee.' I am writing this letter because I want to tell you how much good the Postum has done us, but if you knew how I shrink from publicity, you would not publish this letter,—at least not over my name."—Milford, O.

HE ICNORES CHAMBERLAIN.

Kitchener Pays No Attention to His Proclamation.

BOERS NOT SURRENDERING.

The Colonial Secretary's Promises and Menaces Have No Effect Upon Them -Suspicious Stock Captures.

New York, Aug. 21.-Lord Kitchener's weekly summary while not so encouraging for the British side as the previous one, accounts for 427 Boers and a large quantity of stock, says the London correspondent of the Tribune. The report does not contain evidence that the recent proclamation is exerting much influence, since the voluntary surrenders are below 100 and less than the number reported in the recent summaries.

Lord Kitchener's mobile columns are scouring the country and doing their work without reference to the menaces or promises of Mr. Chamberlain's proclamation. The captures of stock reported from week to week are so large as to excite the suspicion that the horses and cattle have been taken only to be re-captured by the Boers. Otherwise the agricultural wealth of the Dutch republics has never been rated adequately. Military men admit that a considerable portion of the stock taken is lost before it can be driven into the fortified camps along the railways and that much of it has appeared in the summaries of captured property two or three times. The prisoners, however, are not allowed to escape and their numbeh is steadily increasing. It is estimated that the British government is now feeding in military prisons or camps of concentration, about one-third of the entirety of the population of the two republics. This estimate does not include refugees from Johannesburg

and British loyalists. Lord Kitchener's business like report upon the progress of the war helps to explain the pause in the British oper-ations which was as notable a feature of the early summer months. Seasoned troops had been withdrawn and the ew men sent out required many weeks of training to make them fit for their The imperial yoemanry have cost the British natoin more than their

"Washington, Aug. 20.—H. B. Martin, Chairman Joint Committee American Anti-Trust League:

"Sir-I have the honor to acknowledge the receipt of your letter of Aug. 19, 1901, in which you request to obtain for you certain information with reference to certain alleged 'agreement or agreements between the constitutent companies and individuals who organ-ized the United States Steel corpora information that 'I may possess or can obtain,' and you specifically refer to an alleged 'trust or syndicate agreement' which you state the president of the United States Steel corporation, C. acquainted or which you can obtain for "You also state that your request for information is 'founded upon information and belief that at the time this contract, or contracts was or were made' that I was 'in some way officially connected with the Carnegie company,' and you therefore assume that the information which you request must be in 'my possession or conveniently at hand,' I am therefore requested to give you substantial facts, or, if possible, a

"Primarily, permit me to say that your request is founded upon an eroneous assumption. I do not know who the individuals are who organized the United States Steel corporation. If they are the persons referred to usually in the newspapers as the promoters of that organization, with the single ex-ception of C. M. I have no knowledge whatever of their existence, the terms or scope, I am thus specific, as I desire to cover both the spirit and the letter of your inquiry.
"I may say, however, that I have no access to the agreements or papers to which you refer. I know nothing of the one to which you especially refer, and do not even know that such an agree-ment is in existence. The information

you request is not in my possession or conveniently at hand, as you assume, and it is therefore impossible for me to comply with any of the requests set forth in your letter. All this information you could at any time have acquired through the usual method of direct personal inquiry, thereby avoiding the doubtful propriety of addressing me through the medium of an open letter which you concurrently delivered to this office. Whether, if such papers were accessible to me, it would be my duty to obtain them and furnish them for use in legal proceedings to which you are a party, and the nature of which you do not excelain is a question which I do not care at this time to discuss.

"If I may regard the letter as ad-dressed to me ordinarily I would say. If this department is under obligations to furnish information to prospective litigants in undisclosed proceedings, its responsibilities and labors are neces-sarily greater than they have ever been imainged from the time of its forma-tion. Indeed, as there are generally two parties to every controversy it would be difficult to discharge such alleged duty to both parties in view of con-flicting interests. This department was not called into being to furnish infor-mation to private litigants. Its duty and its object is to enforce the federal statutes as interpreted by the courts wherever there is probable cause for elieving that they have violated very respectfully. P. C. Loss of Appetite. is commonly gradual; one dish after another is set aside till few remain. These are not eaten with much relish and are often so light as not to afford much nourishment.

Loss of appetite is one of the first

indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla-the best

Accept no substitute for Hood's, Constipation, impaired digestion and

a torpid liver, are the most common ailments that are responsible for that tired, listless, fagged-out feeling that makes the summer a dreaded period to so many people. HERBINE will cure constipation, it improves the digestion and arouses the liver to cormal activity. Price, 50 cents. Z. C. M. I.
